WHO YOU GONNA CALL? CAN-BUSTERS!

by DESIGN REPUBLIC

MAIN INGREDIENTS

Tuna fish

MISSION STATEMENT

In honor of the nostalgically popular Ghostbuster's film, we are can-structing the most recent Ghostbuster's ghost villian. 'Rowan' boasts 3,000 tuna cans of different sizes and flavors, sticking true to its all white color palette, with red and dark cans accentuating the old school Ghostbuster's logo behind it. One thing is for sure; the importance in helping the cause of hunger relief and our team principles are nothing but 'transparent'. So to provide a cult classic icon in the name of scaring hunger away: If there's something strange, in the hunger-hood, who you gonna call??
