

Job Description

About Us

We are a structural engineering consulting firm providing service to commercial architects, corporate clients, industrial/commercial contractors, public agencies and other private sector clients. We have offices in Washington and New York office. AUE has a national presence and are licensed in all 50 states and 5 Canadian Provinces. AUE was founded in 2003 in Bellevue, WA and expanded to New York in 2012.

The Opportunity.

AUE's success is founded on employees who enjoy creative thinking and providing solutions. We empower our team and offer opportunity to fully develop engineering skills. We are looking to add both entry level and experienced structural engineers to our New York team.

Knowledge, Skills and Abilities

- Perform structural calculations, detailing, construction support, and experience with structures designed with wood, concrete, masonry and steel.
- High level of project management skills with ability to work with multiple clients and projects simultaneously.
- Maintain excellent relationships and meet all project deadlines.
- Ability to write clearly and concisely.
- Speak with clients and provide clear direction while applying a "Client First", dependable, friendly attitude with a consistent follow through.
- Knowledge and comfort with using computer-based programs, such as Excel spreadsheets, Risa, Adapt, and other structural engineering programs. Knowledge of Revit a plus.
- Understand commercial building construction and local New York construction.
- In depth knowledge of current version of Auto CAD and capable of drafting plans and details for projects in an efficient manner.

Qualifications

- Bachelor of Science in Civil/Structural Engineering.
- Work experience in structural engineering consulting field preferred.

We offer employees a generous compensation package including; a competitive salary, flexible schedule, health care, paid vacation and holidays, performance-based bonuses, reimbursement for educational and technical training, travel opportunities, and a creative positive work environment.
